

Dear Lower School Students,

As you add your summer reading titles to **Noodlebib**, some of you **may** see the following message:

Convert List to MLA 7th Edition

What does this mean?

The Modern Language Association (MLA) has updated some of its procedures in its new 7th edition of bibliographic guidelines. The lovely thing about **Noodlebib** is that you do not need to worry about making any changes – **Noodlebib** will make them for you.

What should I do?

Save a copy first?

Yes, save a copy first with 6th edition formatting

No thanks, convert now to 7th edition formatting

Cancel Continue

1. Select **No thanks, convert now to 7th edition formatting**
2. Click on **Continue**
3. You will get a box that says: “This will permanently convert your list Are you sure you want to continue?”
4. Select “OK.”
5. There is your lovely converted list! Notice that the titles are now in ***italics***.

Call me or email me if I can answer any questions. I’m also in the Marriott Library Office this week and next week.

Enjoy the rest of your summer,

Mrs. Smink

Director, Library Information Services☺
